Colorado Wool Growers Association
2019 Associate Membership Application

The Colorado Wool Growers Association is the legislative organization for the sheep industry in Colorado. The CWGA advocates the position of the sheep producers through legislative and lobbying efforts as well as involvement in regulatory issues at both the state and national levels. The CWGA works cooperatively with the Colorado Sheep & Wool Authority on education, research, and public information programs. In order to be a viable and effective advocate for the sheep industry, dedicated sheep producers need to assume leadership roles and participate at all levels in our volunteer not-for-profit organization. Your personal involvement as well as your financial support through voluntary dues helps us achieve our goals. Anyone in the sheep business can join our organization and be involved. Your membership entitles you to receive *The Colorado Sheepman News, CWGA Sheep Shorts, CWGA Membership Directory* and the *ASI Sheep Industry News*.
